

PROPORTIONAL HYDRAULIC TRAINING SET

RE 339

Description:

Proportional Hydraulics provide a complete control equipment in the industry. This unit is a fully equipped training system with all the necessary components which aids to conduct a comprehensive training course in the fundamentals of proportional Hydraulics controls. The system comprises standard industrial components. The board-mounted components are securely attached to the assembly panels by a special quick-clamping system.

Specifications:

- Power packs and components
- Proportional regulator
- 4/3 Proportional valve
- Proportional control valve
- Proportional relief valve
- Hydraulic motor
- Hydraulic cylinders
- Hydraulic lock
- Pressure transmitter
- S7-1200 cpu with analogue inputs and outputs (customizable No.)
- Installation and training video included
- Instructions manual included
- 10-year warranty

Note: Direct contact with the sales department is required to confirm the last updated technical specifications and pictures.

Applications:

1. Investigating check valve, relief valve and one-way valves
2. Familiarizing with linear and rotational actuators
3. PLC programming
4. Applying analogue inputs and outputs
5. Investigating 4/3, 4/2, 3/2 valves

Required For Operation:

- 220V Single Phase Electricity
- Desirable Temperature (°C): 10-30
- Relative Humidity: 15% - 80%
