

H-VAC PIPING TRAINING SETUP

RV 188

Description:

For transferring water between different installations in HVAC system, piping set is utilized. Piping set contains different parts such as storage tank, feed pump and other related equipment for operation.

Specifications:

- Piping, fittings and collector
- Hardness filter
- Pressure gauge
- Temperature sensor
- Control panel
- Instructions manual included
- 10-year warranty

Note: Direct contact with the sales department is required to confirm the last updated technical specifications and pictures.

Applications:

1. Investigation of piping design for HVAC system
2. Familiarizing with required equipment in HVAC piping system

Required For Operation:

- 220V Single Phase Electricity
- Urban Water Supply
- Urban Water Drainage
- Desirable Temperature (°C): 10-40
- Relative Humidity: 15% - 80%
