

16-WAY & 32-WAY PRESSURE DISPLAY

RW 129 (16-WAY) RW 130 (32-WAY)

Description:

This type of pressure measurement device is typically used for measuring and obtaining pressure gradient over aerodynamic objects inside wind tunnel test section.

Specifications:

- Simultaneous measurement of 16 pressure values
- Power supply with stable excitation voltage
- Special software with the ability of saving data run on windows X
- Optional range of sensors due to customer order
- Equipped with noise reduction system
- Compatibility with NI, Advantech boards
- -2kpa to 2kpa pressure range
- Installation and training video included
- Instructions manual included
- 10-year warranty

Note: Direct contact with the sales department is required to confirm the last updated technical specifications and pictures.

Applications:

1. Measuring pressure on different wind tunnel models

Required For Operation:

- 220 v Single Phase Electricity
- Desirable Temperature (°C): 10-50
- Relative Humidity: 15% - 80%

16-WAY & 32-WAY PRESSURE DISPLAY

RW 129 (16-WAY)
RW 130 (32-WAY)

Dimensions (L*W*H) mm: 500x 300 x 500
